IT314 - Software Engineering

Course Project Mid Assessment
Individual Contributions

Group 3:
Chirag Gupta-201801188
Arkaprabha Banerjee-201801408
Rahil Shah-201801252
Kartavi Shah-201801426
Archit Agrawal-201801043
Amruthsai Jilla -201801069
Meet Patel-201801415
Bhagyesh Ganatra-201801047
Ridham Suvagiya-201801006
Udit Meena -201801095

Project Name: Automatic Answer Checker
(Yosemite)

Meet Patel - 201801415	- Leader, Project Manager - Manage Infrastructure and Deployments - Frontend and Backend Development
Chirag Gupta - 201801188	- Backend APIs development - Database Design
Arkaprabha Banerjee - 201801408	- Machine Learning Model research and development - Develop API for deploying the model
Rahil Shah - 201801252	- Machine Learning Model research and development - Develop API for deploying the model
Kartavi Shah - 201801426	- Database Schemas - Populating dummy data into MongoDB Database - Automated Documentations of API
Archit Agrawal - 201801043	- Frontend Development - Homepage of the website
Amruthsai Jilla - 201801069	- Frontend Development - Homepage of the website - Work on data visualizations on Dashboards for different users
Bhagyesh Ganatra - 201801047	- Frontend Development - Making Create Assignment and Submit Assignment forms - Make them functional through backend
Ridham Suvagiya - 201801006	- Frontend Development - Make Dashboards for all users - Handle client-side routing of webapp

	● Load and Display user-data provided by backend in tabular format ● UI Mocks and designs
Udit Meena - 201801095	● UI Mocks, Graphic designs ● Populating dummy data into MongoDB Database ● Automated Documentations of API
